EDUCATION

NMIT — May 2020 - Present
Bachelors in CS — *Bangalore, India*

EXPERIENCE

Developer — Sept 2024 - Present
IG Group — *Bangalore*

- • Built web components in Adobe Experience Manager using Java Sling Model, accelerating content delivery.
- • Built web components in Adobe Experience Manager using Java Sling Model, accelerating content delivery.

Bloom — Dec 2020 - Present
Co-founder — *Remote*

- Built a waitlist of 10+ businesses collectively training over 1000 apprentices each year.
- Shipped 20k+ lines of code, leading a product for apprenticeships and online education across Africa with Supabase backend and Next.js/React frontend while overseeing business, development, DevOps, marketing and recruitment.

PROJECTS

Bloom | Next.js, React.js, PostgreSQL, Supabase, Tailwind, TypeScript, Docker, Paystack   Dec 2023 – Aug 2024

- Implemented authentication and authorization for two user types using Google Auth and phone number verification, establishing a secure JWT-based sign-up/sign-in process to enhance user security.
- Developed a comprehensive job portal featuring job posting and application functionalities, candidate and job management dashboards, and real-time chat capabilities to enhance connectivity and streamline recruitment.
- Built a secure payment system using Paystack to accept and transfer both domestic and international payments between users, leveraging cron jobs for automated processes.
